

WRIGHT COUNTY HEALTH DEPARTMENT

115 1st Street SE • Clarion, IA 50525

Phone: 515 532-3461 • Fax: 515-532-3762

Immediate Release

Wright County Public Health, along with Wright County Emergency Management wants to inform the public on the new vaccination available for 12 years of age and older. Pfizer has released their vaccination and will be available in Wright County starting next week. We will be hosting vaccination clinics like were held for all of our other vaccines in Belmond, Clarion, and Eagle Grove. Be sure to keep an eye on our websites and Facebook pages for updates on when these clinics will be.

Along with the Pfizer vaccine that we will have available for ages 12 and older we also still have Johnston and Johnston vaccine as well as Moderna available to ages 18 and older that want it in Wright County.

The CDC came out on Thursday, May 13th and said that if you are fully vaccinated you no longer need to wear a mask in public or private events or outings. They stated that this is a major step to getting back to pre-pandemic life. Wright County Public Health wanted to briefly touch on this as most of the public will start to notice this information in the news.

Lastly, if you have any issues with making vaccination appointments please call Wright County Public Health at (515) 532-3461. Do not hesitate to call if you have any general questions about any of the three vaccines that we offer in Wright County as well, they are always happy and excited to take those calls and get your questions answered.

Respectfully,

Jarika Eisentrager \ Wright County Emergency Management
on behalf of
Sandy McGrath RN \ Wright Public Health
